

Covid-19 update

14 September 2021

- Auckland remains at **Alert Level 4 until Tuesday 21 September.**
- Cabinet has made an in principle decision that Auckland will move to Alert Level 3 at **11.59pm Tuesday 21 September.**
- We will continue with online classes during Alert Level 4. Attendance is compulsory as usual
- **Get vaccinated!**

What are the benefits of getting vaccinated?

The COVID-19 vaccines produce protection against the disease, as a result of developing an immune response to the SARS-Cov-2 virus. Developing immunity through vaccination means there is a reduced risk of developing the illness and its consequences. This immunity helps you fight the virus if exposed. Getting vaccinated may also protect people around you, because if you are protected from getting infected and from disease, you are less likely to infect someone else. This is particularly important to protect people at increased risk for severe illness from COVID-19, such as healthcare providers, older or elderly adults, and people with other medical conditions.

Who can book now

If you are aged 12 or over, you can book your **free COVID-19 vaccination now. It does not matter what your visa or citizenship status is.** You can book on behalf of someone else — or help them with their booking — if you have their permission.
